

Interim Guidance for Essential Businesses and Workers Who May Have Had Exposure

Pre-Screen: Employers should measure the employee's temperature and assess symptoms prior to them starting work. Ideally, temperature checks should happen before the individual enters the facility.

Regular Monitoring: As long as the employee doesn't have a temperature or symptoms, they should self-monitor under the supervision of their employer's occupational health program.

Wear a Mask: The employee should wear a face mask at all times while in the workplace for 14 days after last exposure. Employers can issue facemasks or can approve employees' supplied cloth face coverings in the event of shortages.

Social Distance: The employee should maintain 6 feet and practice social distancing as work duties permit in the workplace.

Disinfect and Clean work spaces: Clean and disinfect all areas such as offices, bathrooms, common areas, shared electronic equipment routinely.

Do not share headsets or other objects that are near the mouth and nose.

Maintain social distancing of 6 feet.

Clean commonly touched surfaces.

If you become sick, go home immediately.
